Dear Sirs,-

I have completed the sanitary survey of all of your ice properties located in Pennsylvania and New Jersey and have sent you the reports on each individual plant as to the method of harvesting, sanitary survey of the property, and quality of water and ice. I wish to express my entire approval of your carefulness in methods of harvesting, both in care of the field and in care of the ice by means of planing, etc. so that only clear ice is stored of a uniform thickness in perfect physical condition with sanitary precautions. In every ice harvesting plant I visited from three to seven inches of the surface ice was removed by the planers, leaving for storage ice that had come in no contact with men or horses during the harvesting. The lakes from which you harvested ice are fed by uncontaminated streams and the quality of ice harvested from a bacteriological and chemical point of view was of an exceedingly high standard of purity, containing no harmful bacteria and being in every way suitable for domestic consumption.

Yours very truly,

John C. Sparks

EXPLANATORY NOTE.

This Supplement brings the Tax List down to date and together they give a detailed statement of all real estate and personalty assessments as fixed by the Commissioners of Assessments of the City of Hoboken for the fiscal year 1911-1912.

These assessments are subject to appeal and the County Board of Taxation will sit as Commissioners of Appeal at the City Hall on December 6th, 7th and 8th in order to hear such taxpayers as are aggrieved at the valuations placed on their property.

This supplement would have been published about a month to six weeks earlier if it had not been for the delay in striking the tax rate, a duty that devolves upon the County Board.

Scope of Work.

The Tax List and Supplement together give the name of the owner; the street number of the house; the block number of the land; the new and old lot numbers; the dimensions of the ground; the value of the land; the value of the improvements; the total valuation; the names of those who pay the poll tax; the amount of taxes paid; and the ward in which the property is located. With regard to the personal property, they show the name and address of the person paying the taxes, also the value of the chattels upon which the taxes are paid and likewise the amount paid.

How to Use the Tax List and Supplement.

The list is indexed against streets, those nearest the river coming first, others following in their order westward; streets running east and west are next arranged in their order northward. See map of Hoboken for arrangement of streets.

To begin with you must have the street and house number.

Examine the Tax List first, then turn to the Supplement,—if you cannot find the property listed in the Supplement, no change in the assessment has been made since the fiscal year 1910-1911. But if the property is listed in the Supplement, then a change has been made and the Supplement contains the corrected figures.

If you do not have the house number and street, but have the block and lot numbers, you can consult the map of Hoboken and thus find the location of the property. When you have found the streets that bound your property, examine the Tax List and Supplement under the street heading and you can find the property. This kind of a search involves a little more care and labor.

The assessments on all properties not listed in the Supplement have remained unchanged.

How to Find the Amount of Taxes.

You are cautioned, however, against relying upon the figures contained in the second last column of the Tax List headed "Amount of Taxes." As the "rate" varies from year to year, these amounts will vary, therefore, in order to get the amount of taxes due this year on properties whose assessed valuations have remained unchanged, you must multiply the amount shown under the caption "Total Valuation" by the rate of this year which is $20.12 for Hoboken proper (old) and $19.43 for the Weehawken Addition, per thousand. The Supplement of course gives the correct amount of taxes due for this year.

Information for the Taxpayer.

For the fiscal year 1911-1912 the following sum must be raised by taxation from the taxpayers of the City of Hoboken:

For Municipal Purposes	$ 845,037.51
For County Purposes	362,538.22
For State School Purposes	181,554.57
Total	$1,389,130.30

These figures are taken from the certificate addressed to the Commissioners of Assessment of Hoboken by the Hudson County Board of Taxation:

The total ratables are:

Hoboken (old)	$56,762,578
Weehawken Addition	12,733,884
Total	$69,496,462

The tax rate for this year is:

		Increase over last Year Per Thousand	%
Hoboken (old)	$20.12	$2.10	10.4%
Weehawken Addition	19.43	2.12	10.9%

The increase is greater than any other Municipality in Hudson County!

COST OF COUNTY GOVERNMENT.

The cost of the County Government is increasing by leaps and bounds. Hoboken's contribution is 86 % more this year than it was in 1906. The following figures tell the story:

1906	$194,574.66	1909	$272,615.35
1907	225,112.29	1910	315,079.44
1908	252,277.89	1911	362,538.22

It will cost $2,523.901.55 to run the County this year and Hoboken's share of the burden amounts to 14.36 per cent. In other words Hoboken pays $14.36 on every $100 wasted on Court Houses, Viaducts, padded pay rolls and other extravagances. It pays one-seventh (1-7) of all county improvements!

AMOUNT RAISED FOR CITY PURPOSES.

The following summary of the Tax Budget is taken from the Tax Ordinance and is slightly different in arrangement:

		$841,558.82

This total of $841,558.82 is derived from the Tax Ordinances as published and is $3,478.69 less than the amount certified to by the County Board which was $845,037.51. It is possible that this difference may be found in the figures marked with an asterisk (*), such figures being simply approximate.

The foregoing figures show that the cost of municipal government in Hoboken is the sum of $1,207,903.24; that the city is fortunate in having income items amounting to $389,-990.19, thus leaving as the net to be raised by taxation, the sum of $845,037.51.

Years marked with (*) show valuations on a 100% basis.

Prior to 1907 the basis of valuation was about 60%, but beginning with 1907 the properties have been assessed on a 100% valuation basis, hence the change in the tax rate..

The true test of the increase in the cost of municipal government is found in a comparison of the tax rate for "city purposes." The rates prior to 1907 must be reduced from a 60% valuation basis to a 100% basis in order to compare conditions prior to 1907 with that year and the subsequent years.

HOW TO USE SUPPLEMENT.

This Supplement and the Tax List issued for the Fiscal year of 1917-1918 bring to date information on assessments on real and personal property in the City of Hoboken. This Supplement contains only such assessments as have been changed up to and including 1919.

The Tax List and this Supplement have been so prepared as to give ready information on all assessments. Knowing the street and house number, first consult the Tax List for the assessment; then consult the Supplement. If the property is given in it (the Supplement), the assessment is the correct one for this year and the tax given is the correct tax.

If the Supplement does not contain the property, then no change has been made and the assessment in the Tax List is correct. But to ascertain the tax to be paid, as the tax rate has been changed since last year, the assessment must be multiplied by the current tax rate of $23.11 per thousand. In the Weehawken Addition, however, the assessment must be multiplied by the current rate of $22.68 per thousand.

THE SUPPLEMENT AND TAX LIST GIVE—

Name of Person Assessed, Street, Block and New Lot Number, Dimensions, Value of Land, Improvements and Chattels, Total Valuation and the Tax to be paid. Also the Exempt Property; Property Assessed by State Board of Taxes and Assessment; Abstract of Exemptions in Cities in Hudson County; and an Abstract of Ratables in Cities in Hudson County.

ORDER OF STREETS AND ASSESSMENTS.

Both the Tax List and the Supplement begin with River Street, other streets following Westward in order; streets running East and West are next arranged in order running Northward.

HOW TO USE THE SUPPLEMENTS.

The Tax List issued for the Fiscal Year 1917-1918 and the Supplements of 1919-1920 bring to date information on assessments on real and personal property in the City of Hoboken. The Supplements contain only such assessments as have been changed up to and including the year 1920 issue.

The Tax List and the Supplements have been so prepared as to give ready information on all assessments. Knowing the street and house number, first consult the Tax List for the assessment; then consult the Supplement for 1919 and the Supplement for 1920. If the property is listed in the Supplement for 1920, the assessment is the correct one for this year and the tax given is the correct tax. If the 1920 Supplement does not contain the property, then no change has been made since the last listing of the same property either in the Tax List or in the Supplement for 1919. But to ascertain the tax to be paid, as the tax rate has been changed since last year, the assessment must be multiplied by the current tax rate of $37.82 per thousand. In the Weehawken Addition, however, the assessment must be multiplied by the current rate of $37.27 per thousand.

THE SUPPLEMENT AND TAX LIST GIVE—

Name of Person Assessed, Street, Block and New Lot Number, Dimensions, Value of Land, Improvements and Chattels, Total Valuation and the Tax to be paid. Also the Exempt property; Property Assessed by State Board of Taxes and Assessment; Abstract of Exemptions in Cities in Hudson County; and an Abstract of Ratables in Cities in Hudson County.

ORDER OF STREETS AND ASSESSMENTS.

Both the Tax List and the Supplements begin with River Street, other streets following Westward in order; streets running East and West are next arranged in order running Northward.

WHEN THE TIME COMES

for the settlement of your estate will your affairs be found safely entrusted to the care of a

TRUST COMPANY

or will they have to take the chance of irregular and unsatisfactory individual management?

This company is legally authorized:

First--To act as Trustee under mortgages made by corporations or individuals.

FOREWORD

This volume provides a complete list of all taxable property in Hoboken and the amounts levied against each parcel. In these days of high taxes, however, tax payers are interested not alone in the amount of taxes they have to pay. They want to know also whether taxes are high elsewhere, *WHY* taxes are high and whether there is a prospect of lower taxes in the future.

As an aid to those individuals who are interested in finding the answers to these questions, a statistical appendix has been added to this volume. The following tables are presented:

1. Hoboken Tax Rates since 1915.
2. Apportionment of Hoboken Tax Rates since 1915.
3. Assessed Valuation of Taxable Property in Hoboken, since 1915.
4. Tax Rates Elsewhere in Hudson County, 1920 and 1921.
5. Municipal Budget of the City of Hoboken, 1920 and 1921.
6. Table showing all appropriations for local purposes, apportionment for County and State purposes, revenues from miscellaneous sources, total revenue derived from general property tax.
7. Comparative Debt Statements, City of Hoboken, 1916 to 1920, inclusive.
8. Condensed Debt Statements of nine leading cities of New Jersey, 1916 to 1920 inclusive.

A careful study of these tables and the past trends which they reveal will give tax payers at least a basis of fact on which to make a tentative forecast of the future.

APPENDIX

The tables herein contained have been compiled by the Hoboken Chamber of Commerce from various sources: the annual abstracts of ratables of Hudson County, official copies of the annual budgets of Hoboken, annual debt statements on file in the office of the Commissioner of Municipal Accounts in Trenton and newspaper reports. In some instances there are palpable evidences of inaccuracies in certain of the official reports; in others there are minor discrepancies between official reports from different sources bearing on the same subjects. Wherever possible, without recourse to an actual audit, these inaccuracies or discrepancies have been adjusted in the tables.

Tables 1 to 5 are self explanatory. Tables 6 to 8 are somewhat more complicated and the following notes are given to make their meaning apparent:

TABLE 6

Lines 1 to 11 inclusive in this table are based on the city budgets for the years indicated. For the sake of brevity and of ease in comparison with the detailed budget appropriations published in Table 5, expenditures are grouped under the heads of the city's five administrative departments. Reference to the preceding table will indicate the municipal activities included under each general head for the seven fiscal years reported.

Lines 12 to 14 inclusive are based on the budgets of the school board, as certified to the municipal government. In this connection, it is necessary to point out that the school fiscal year does not correspond with the municipal fiscal year as indicated at the top of each column. The official fiscal school year is from July 1st to June 30th. In 1919, however, the amounts appropriated for the schools covered only the period from July 1st to December 31st, 1919. Since that time, the city has regarded the official school fiscal year as coinciding with the municipal fiscal year.

Line 15 is a mandatory item which makes its appearance only in the tax ordinance by means of which the total amount to be raised by taxation, after deducting all revenues from other sources, is certified to the county tax board.

(Explanation—Line 7 is the sum of lines 1 to 6.

Line 10 is the sum of lines 8 and 9.

Line 11 is the difference between lines 7 and 10.

Line 14 is the difference between lines 12 and 13.

Line 16 is the sum of lines 11, 14 and 15, and is certified to the county board of taxes.)

Lines 17 to 23 inclusive are derived from the county abstract of ratables, and represent (17) the city's half of taxes levied on bank stock in lieu of a tax on the personal property of banks, which is deducted from the sums in line 16 in order to arrive at the amounts (18) to be levied on general property for local purposes; lines 19 to 23 represent the apportioned shares of the various state and county taxes which are to be levied on general property within the City of Hoboken.

Line 24 is the sum of all the general property taxes levied in Hoboken.

For the sake of greater clarity, major totals are printed in black face type; deductions made in arriving at the totals are printed in italics.

TABLE 7

This table presents in detail the debt condition of the City of Hoboken as of December 31st in the years 1916 to 1920 inclusive, as set forth in the annual debt statements filed in compliance with the Pierson Bond Act.

The controlling factors in establishing the percentage of net debt are:

1. The sum of all the outstanding indebtedness of the city for general purposes and for public utilities, exclusive of the notes issued in anticipation of the current year's taxes, plus the outstanding net debt for schools after deducting the sinking funds applicable thereto.

2. The sum of the permitted deductions from the gross debt above, including amounts on hand in the sinking fund applicable to general bonds, all bonds issued for self supporting public utilities and for school purposes up to three per cent. each of the average assessed valuations of real estate (including second class railway property) for the three years next preceding; special assessments levied or to be levied for public improvements, and certain other items.

3. The difference between the gross outstanding debt and the legal deductions.

4. The average assessed valuation of real property including second class railway property (but in no case including personal property) for the three years next preceding the date for which the statement is made.

The relation which (3) bears to (4) expressed in terms of percentage, represents the percentage of net debt. The legal limit for this percentage established by law is seven per cent. Because of the form in which the statement is made, this seven per cent. limit will apply normally only to the general debt of the city; i. e. the debt for streets, sewers, public buildings (except schools) etc. The city may have an additional debt up to three per cent. for water supply, electric lights, docks and other self supporting public utilities; and a further debt up to three per cent. for school buildings, etc., without affecting the general debt. In case, however, that the debt under either of these headings exceeds the authorized three per cent., the excess over the three per cent. becomes a charge against the general debt limit.

TABLE 8

This table sets forth in condensed form the debt statements of nine leading cities in New Jersey. The figures are taken from the official statements on file in the office of the Commissioner of Municipal Accounts in Trenton. Certain of the cities have apparently made errors in preparing their reports, which it would be difficult if not impossible to check without a great deal of effort. Consequently the figures are set forth without correction.

It will be observed that the percentages for Hoboken for the years 1916, 1917, and 1918, as set forth in this condensed table, do not agree with those in the detailed table for Hoboken alone. Table 8 represents the percentages actually reported, which are based erroneously on average assessed valuations including personal property. In Table 7, the percentage represents the relationship between the net debt reported and the average assessed valuations of real estate alone.
